❖ COMPANY PROFILE

The Company's core business is the manufacturing of forged items up to 30 tons designed for the main industrial application areas such as Petrochemical, Oil & Gas, Power Generation, Shipbuilding, Metallurgy, General Mechanics and Steel Stockholders/Traders.

"The agile and flexible Company structure as well as the direct contact with the Customer allow prompt reaction and an ongoing presence in order to guarantee the best service".

*Mario Gussago
CEO*

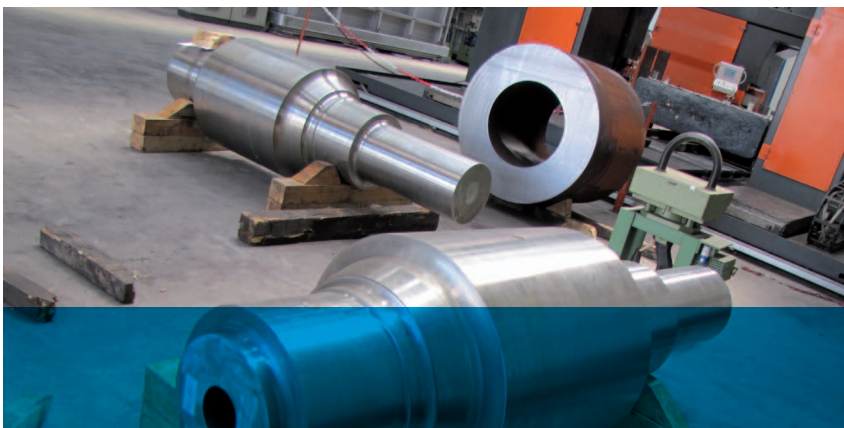

EXPERIENCE AND COMPETENCE AT THE SERVICE OF OUR CUSTOMERS SINCE 1976.

Company profile

Active since 1976 in the **open-die forging business**, Fomec has a yearly output of 30.000 tons of forgings having **an individual weight up to 30 tons**.

Competitiveness is based on its **agile and flexible structure**: flexible manufacturing planning, fast deliveries and customer direct interaction with the heart of the enterprise.

Experience and competence within Fomec combine with manufacturing process and state of the art production equipment.

Modern heating and heat treatment furnaces within the forging department guarantee our product's quality.

Hydraulic presses, hammers and manipulators enable the handling/ forging of ingots **up to 50 tons**.

The cutting department is equipped with saws handling up to 2.300 mm width sections.

Our internal machining department is equipped with milling machines, boring machines, vertical and parallel lathes, allowing machining of parts **up to 35 tons weight**.

Our stock of **carbon, alloy, stainless, duplex and superduplex** grades enables us

to provide our customers with a large variety of products of immediate availability.

Vacuum degassed ingots sourced only from qualified leading steel mills

OUR SERVICES

Products safety and quality are our priority.

With customized services **we are close to your business.**

With a continued presence in the main world strategic economy areas, Fomec develops new competence, human resources and technical solutions thus realizing and improving quality while granting customer satisfaction and the most strict respect of environment and safety standards.

FORGING

With our 5.000 tons hydraulic press we can forge parts up to 35 tons weight.

HEAT TREATMENT

Our highly-efficient facilities allow a wide range of quality heat treatments. Water and polymer tanks allow quenching / solution annealing of parts up to 35 tons.

MACHINING

Our internal machining shop and a choice of approved and qualified suppliers, offer our customers rough machined or finish machined options.

TESTING

Our testing lab holds approvals from the main international authorities. All destructive testings (tensile and impact) as well as non-destructive (ultrasonics, magnetic and dye-penetrant) are carried out internally.

OUR MARKETS

Oil & Gas, Power Generation, Mechanics, Metallurgy, Transport and Infrastructure, Earth-moving, Trading and Retailing.

OIL&GAS, POWER GENERATION

VALVE BODIES, FLANGES, HOLLOWES, CLOSURES, BLINDS, ROTORS, WHEELS, BUSHES, DISCS FOR GAS-, STEAM- AND HYDRAULIC-TURBINES, ENGINES, COMPRESSORS, WIND-TURBINES, NUCLEAR POWER PLANTS.

MINING INDUSTRY

NOZZLES, HOLLOWES, RINGS, WHEELS, PISTONS, CYLINDERS, INTERLOCKS, BUSHES, ECCENTRIC SHAFTS.

STEEL INDUSTRY

CYLINDERS, MANDRELS, SHAFTS, PINIONS, INTERLOCKS, WHEELS AND BRACKETS FOR LAMINATION, STEEL MILLS AND OTHER APPLICATIONS.

MECHANICS

ECCENTRIC SHAFTS, CYLINDERS, PISTONS, COLUMNS, BUSHES, DISCS, SPROCKETS, BRACKETS AND MANDRELS FOR GEARBOXES, PAPER INDUSTRY, PRESSES AND MORE.

TRANSPORT & INFRASTRUCTURE

DRIVE SHAFTS, RUDDER SHAFTS, PROPELLER SHAFTS, RUN-WHEELS, GEARINGS, ROTORS AND MORE FOR RAILWAY APPLICATION, SHIPBUILDING, AIRCRAFT INDUSTRY.

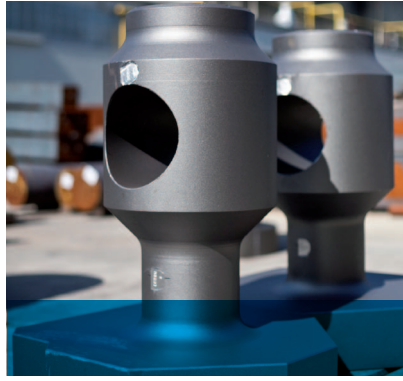

TRADING AND RETAILING

CASE-HARDENING STEEL, NITRIDING STEEL, HARDENED AND TEMPERED STEEL, TOOL STEEL.

CONNECTORS, PROFILED BODIES

HEAD CYLINDERS

SAFETY-SYSTEMS PINIONS

SQUARE AND ROUND BARS, PLATES

VALVE BODIES

HOLLOWS, WELLHEADS

BALL-VALVE BODIES

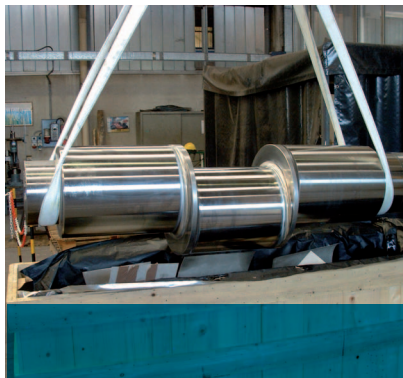

WHEELS, DISCS

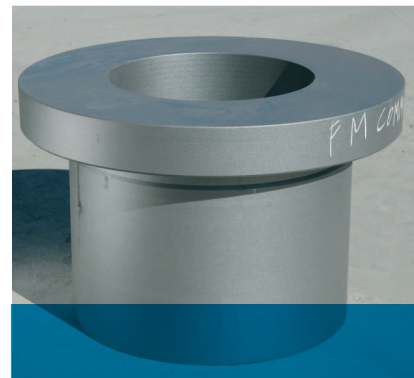

BALL-VALVE BODIES

TURBINE SHAFTS, CYLINDERS

ECCENTRIC SHAFTS

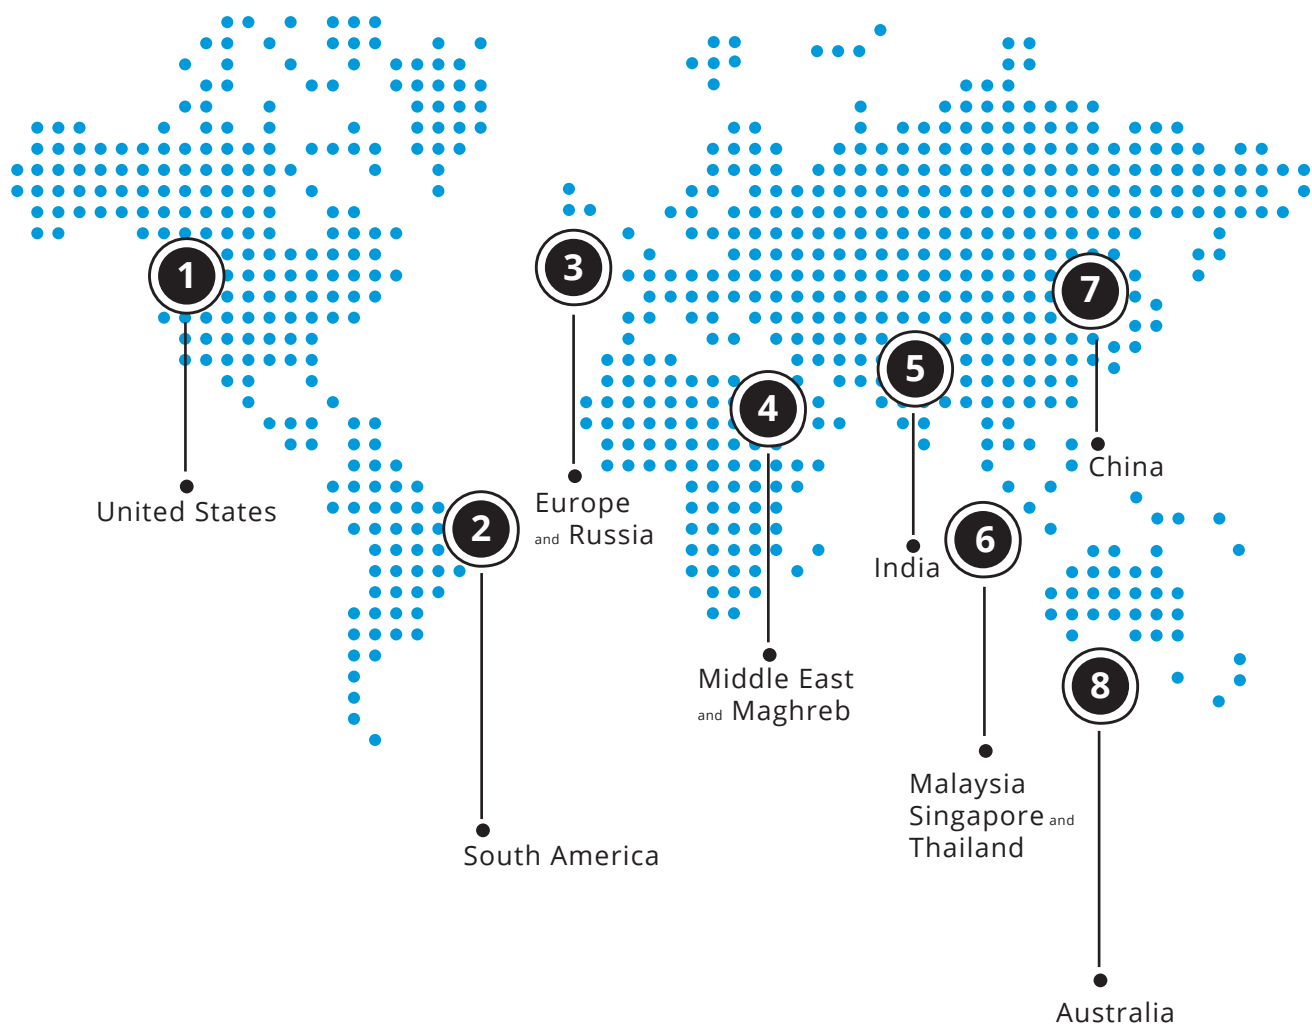

SPECIAL SHAPED FLANGES

"THERE'S ONLY ONE GROWTH STRATEGY: WORK HARD". WILLIAM HAGUE

OUR **MARKETS**

Over 70% of our turnover is allocated to the International market:
 France, Germany, Finland, United Kingdom, Singapore, United States, Brazil, China.

SAFETY AND QUALITY

MANY OF OUR PRODUCTS ARE DUE TO SERVICE IN DEEP WATER ENVIRONMENT GUARANTEEING EXCELLENT PERFORMANCE WHILE SAFEGUARDING MAXIMUM SAFETY.

Quality

Our Company policy is to provide products and services while offering the highest quality standards. Our target is a continued improvement in order to fulfill our customer's increasing quality requirements.

Safety

Is our highest priority.

Approvals

- ISO 9001
- GERMANISCHER LLOYD
- DET NORSKE VERITAS
- TÜV
- BUREAU VERITAS
- ABS American Bureau of Shipping
- LLOYD'S REGISTER

Testing

- Non-destructive testing
- Mechanical properties
- Tensile testing
- Impact testing
- Chemical analysis
- Micro and macrographic testing

WE BELIEVE IN A CONTINUOUS AND SUSTAINABLE GROWTH.

MOVING TOWARDS FUTURE

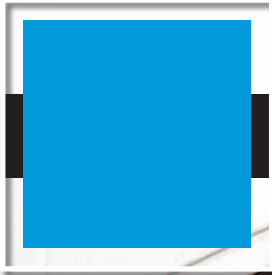

“ Coming together is a beginning; keeping together is progress; working together is success”. (Henry Ford)

We want to grow with our customers with a business attitude focused on people, environment and safety. With such commitment we liaise with the best suppliers in order to provide high quality products and services.
